To whom it may concern,

i am writing to express my interest in your company's Web Developer job.

My development skills and the ability to teach others make me a suitable candidate for this position. I possess a wide range of knowledge in both frontend and backend development. Furthermore, my additional understanding of Graphic Design, UI-UX design principles, Android Development and Data Science makes me suitable for this position.

Before this, I have been doing a lot of freelance jobs on freelancer.com and behance.com for over three years. I possess a wide range of knowledge in C, C++, C#, Java, PHP, and Python Programming languages. I was appointed the public relations and creative executive at the Center of Excellence in Teaching and Learning from December 2019 to May 2020 at ULAB. Besides that, I was the chief executive officer at i1class.com, a startup company, from July 2021 to November 2021. I also served as a teacher's Assistant at the University of Liberal Arts Bangladesh from March 2022 - October 2022 before I graduated from the University.

Besides all that, I have vital communications skill. I am a team player and possess the ability to settle into a new place very fast. I can work under pressure under any circumstances.

Enclosed is my CV for your review. My contacts are given in the contact section. Thank you for your time.
